CAREER OBJECTIVE

A motivated Computer Science student with a strong interest in problem-solving and continuous learning, eager to apply technical skills and contribute effectively while growing in a professional environment.

EDUCATION

Ashoka Women's Engineering College	2023-2027
<i>B.Tech in Computer Science and Engineering</i>	<i>Percentage:80</i>
Sastra Junior College	2021-2023
<i>AP Board of intermediate in MPC</i>	<i>percentage:93.5</i>
Frobel's Garden High School	2021
<i>TS Board of secondary education</i>	<i>percentage:95</i>

TECHNICAL SKILLS

- **Web Technologies** :HTML,CSS,JS
- **Core Programming Languages** : Java , Python ,C
- **Skills**: Data Structure & Algorithms , UI/UX design
- **Database Systems**:SQL
- **Data Visualization**: Word,PPT
- **Tools** :VS Code ,Github

TECHNICAL SUMMARY

Programming Languages:

- Proficient in Java with strong OOP knowledge, and familiar with Python and C for problem-solving.

Technologies:

- Developed responsive web applications using HTML, CSS, and JavaScript.
- Strong understanding of Data Structures and Algorithms (DSA).
- Familiar with DBMS and SQL for data handling.
- Proficient in VS Code and GitHub for development and version control.

PERSONALITY TRAITS

- **Growth Mindset** - Always open to learning and improving through feedback.
- **Problem Solving Orientation** - Approach challenges with structured and logical solutions.
- **Time Management**- Ability to meet deadlines under pressure.

TRAINING ATTENDED

SMART INTERVIEWS - DATA STRUCTURES AND ALGORITHM PROGRAM(Certified)

- Completed structured DSA program focused on coding interviews
- Practiced Problem-Solving on topics like Trees , Graphs ,and Dynamic Programming •
Improved coding efficiency and analytical thinking

CERTIFICATIONS

- Online Certification in English Language for competitive Exams
- Certificate of Python Full Stack Workshop Conducted by think champ
- Smart Interview Certification (Data Structures & NPTEL Algorithms)

PROJECTS

Custom Product Builder – Interactive Web Application (Ongoing)

- Developing a web-based application that allows users to customize products in real-time.
- Implementing features like text editing, image upload, and color selection.
- Implemented backend functionality using Node.js and Express.js
- Integrated MongoDB (NoSQL) database for storing and managing product information
- Collaborated with team members using GitHub for version control

PERSONAL DETAILS

- Hobbies:** listening music , Dancing ,Cooking
- Languages Known:** English, Telugu

DECLARATION

I hereby declare that the above provided information are true and correct to the best of my knowledge and belief.
